

Y12 Film Studies

Summer Work For Film Studies

Welcome to Film Studies A Level. Over the summer, it is time to get watching some films and start to become more familiar with the wonderful world of London cinema.

Over the summer, we'd like you to:

1. Watch an independent cinema release in an independent London cinema
2. Read and start subscribing to Mark Kermode's twitter/ Guardian webpage on film
3. Watch something out of your comfort zone: world cinema, European cinema or other.
4. Get ready to kick off the course with a clip of your favourite film. Be ready to talk about it in class and prepare a sheet for us to read on what makes it an arresting piece of cinema.
5. Start to read some quality film criticism. Get a copy of Sight and Sound and start reading it cover to cover.
