**Contingency Planning
December 2021**

Contingency Planning in the case of Public Exam Cancellation 2022

A few weeks ago the government published its guidance on contingency plans that should be in place in the unlikely event that Year11 and Year13 exams are cancelled this year. It is important to note that this is a contingency plan and the DfE are confident that exams will take place this year.

The government have stated that all schools must assess students three times across the academic year and keep this evidence in the unlikely event that a TAG process replaces public exams.

In light of this we will be adding an assessment to our calendar just after Easter, in addition to those already in our plans for year 11 and 13: PP1 from November and the upcoming mocks in January. We believe that this contingency planning should not impact the purposes of our normal assessments/mocks:

1. Preparing students for the experience of sitting a full paper as they will never have done this
2. Providing valuable information to teachers and students about what they know and areas for improvement.

It is important to note that elements of the assessments will be used in the highly unlikely event that the exams are cancelled. In this handout we are providing Students information regarding which elements of each assessment will be used along with which topics will be assessed.

It is vitally important that students revise for whole assessment as this will replicate the real exams which are likely to be the way students are assessed in the summer.

We will support you and prepare you for your assessments so it is vital that you are in your lessons on time and ready to learn. It is important that students continue to focus on their work and follow the revision guidance given by their subject teachers.

It is not possible for us to enter into conversation with you about the grades to be awarded and what is specifically in the assessments. Please do not ask teachers about this. There are clear restrictions in place that mean that they will not be able to answer.

Ofqual have also written an open letter to students affected by this which you can read [here](#)
