Transforming lives through education

Building Future at Fortismere

A World-Class Campus for Our Students

01

Once-in-a-Generation Investment

Transforming our facilities through the DfE School Rebuilding Programme to give our students state-of-the-art learning environments.

02

High-Quality Learning Village

Leveraging our 20-acre site to host a modern, high-spec "learning village" during construction with bright spacious classrooms.

03

Proven Management & Safety

Drawing on best practice from benchmark site visits; top-tier educational standards and child safety remain our absolute priorities.

04

Journey to GCSE Success

Your children will experience an exciting transformation and take GCSEs in modern, high-quality school facilities.

fortismere

Building The Future At Fortismere

The DfE may build a temporary village for our Students on our site

Modern "Learning Village" On-Site

Leveraging our generous 20-acre site, Fortismere has a major advantage: we would be able host a dedicated, high-spec temporary "learning village" right on campus during construction if required to decant.

Spacious & Bright

Temporary classrooms are large, modern, fully fitted classrooms featuring vibrant lighting and high specifications.

Fully Equipped

If necessary it would involve creating purpose-built spaces for computing, science, library, and humanities with full IT integration.

Tried & Tested Quality

Informed by visits to other successful school sites to guarantee a safe, comfortable, and seamless transition for every child.

Building the Future at Fortismere

Modern DfE Replacement Facilities

- **On-Site Replacement:** During the construction phase, the Department for Education (DfE) will replace several classrooms on site with high-specification temporary units.
- **State-of-the-Art:** Fully equipped, bright, and spacious learning environments engineered to high standards.
- **Staff & Student Ready:** Fantastic modern facilities that both staff and students will be excited to move into!
