NEW this term KS4 offer

Yr 10 / Yr 11

This is potentially a 2 year program but with the added benefit of students being able to apply and join throughout KS4, should there be spaces available.

Finch KS4 is an AP where students are taught in classrooms by specialist Maths, English and Science teachers. Alongside the core subjects there is a GCSE level Work Skills programme offering students the opportunity to study the world of work and it's associated skills. As with our Breathing Space offer the course will also offer the students the opportunity to build and develop their own interests, particularly in the world of work with the prospect of work experience in their chosen field too. Students can also work on a self identified personal project - HPQ which amounts to ½ GCSE alongside the opportunity to complete unit awards and short courses dependant on their attendance and attitude to learning.

By narrowing our curriculum to three core GCSEs, a potential level 2 course, dependent on previous academic scores, and a HPQ, we believe that the students will be given the tools to progress to post 16 and possible level 2/3 courses in local colleges.

Alongside this our offer to students includes courses on emotional resilience, living healthy lifestyles, positive character building, a PSHE programme, career advice and encouraging aspirational attitudes by exposing students to local business for trips and understanding of the world of work. This will include the wider context of using London to engage in real world learning,

Finch is a calm and caring environment with a focus on student centred learning and flexibility, classes are small and we pride ourselves on building excellent relationships with students, parents/carers and schools – we are good communicators.

Finally we promise to send attendance reports / give regular updates and be there to support families and adults around the students.

	MON	TUES	WED	THURS	FRI
8.40 – 9.00	Breakfast				
9.00	Start of lessons
